Re: Final Transmittal of Hexcel Laboratory Data Packages

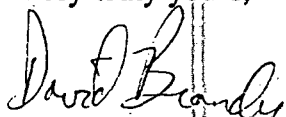

Dear Debbie:

Enclosed please find a final shipment of two laboratory data packages. You should now have in your possession all existing data sheets for soil samples collected by ENVIRON at the Hexcel site. The two data packages sent in this shipment included the analytical results for samples BG01-SB01, 0601-SB01, 0601-SB02, and 0601-SB03, and are described below:

- 1) Analytical Data Report Package dated August 10, 1988, pages numbered 1 through 169;
- 2) Inorganic Analytical Data Report Package dated August 30, 1988, pages numbered 1 through 38;

If you have any questions, feel free to call John Schroeter or myself.

Very truly yours,

David Brandes
Associate Engineer
